Wisconsin Farm to School
2013 School Food Service Directory

Welcome to the 2013 Wisconsin Farm to School Food Service Directory. This Directory is a tool to help farmers better connect with schools in their area who are interested in purchasing local products for schools meals. This Directory lists school districts, schools and educational facilities that have either previously purchased or are interested in purchasing locally grown products for their school nutrition programs. The following information was collected through the 2013 Wisconsin Farm to School Food Service Director Survey, which was sent to the Wisconsin Department of Public Instruction list of School Food Authorities (SFAs) participating in the National School Lunch Program (NSLP). There are 831 SFAs in Wisconsin, and 285 surveys were returned, for a 34% response rate. 70% of respondents represented school districts, and 30% represented individual schools. Individual SFAs were offered the opportunity to opt into this Directory. As a Wisconsin producer, this Directory can serve as your guide to locate local schools that may be interested in purchasing your product. Please see the Wisconsin Farm to School Toolkit for Producers for more information on Wisconsin Farm to School and how to best develop relationships with Wisconsin schools. The toolkit is available online at www.cias.wisc.edu/toolkits.

If you are a school or school district and would like to be included in this directory, please complete the survey located here. FSD’s, please visit the WI Farm to School Producer Directory, to find a list of WI farmers interested in working with schools. To join the Producer Directory, fill out the survey here.

Why Farm to School?
Farm to school encourages healthy lifestyles in children and helps support local economies. In Wisconsin, farm to school programs connect schools with locally and regionally grown and produced products. Farm to school offers producers the opportunity for a new market to sell product, promotion opportunities by selling their product through schools, and the opportunity to serve as an educator by visiting schools or bringing students onto the farm for field trips. Did you know that in Wisconsin:

- At least 76 schools or districts identify as having a farm to school program
- At least 189 schools or districts purchased local food in the 2011-2012 school year
- 93 percent of respondents are continue or expanding their local purchasing and/or farm to school program
- An estimated total of $600,000 of local food was purchased by respondents in the 2011-2012 school year
This directory is organized by geographic region. Schools are listed by district or school name, followed by the name and contact information for a staff person who works with school food programs. School addresses and counties are also listed.

1. West Region Pg 3
Includes Barron, Buffalo, Burnett, Chippewa, Clark, Dunn, Eau Claire, Jackson, La Crosse, Monroe, Pepin, Pierce, Polk, Rusk, Saint Croix, Sawyer, Trempealeau & Washburn Counties
