

# Exploring American Indian Agriculture and Food Systems

Past, Present and Future

*A CIAS Culture of Agriculture event*

**Monday, November 26, 2012, 6 pm**

**H.F. DeLuca Forum Room**

**Wisconsin Institutes for Discovery**

**330 North Orchard Street, Madison, WI**

Free and open to the public. Parking is available at campus ramps (fee required for parking):  
Union South underground garage (Lot 80) access from Dayton Street and Engineering Hall lot  
(Lot 17) access from N. Randall Avenue

**Dan Cornelius**, Technical Assistance Specialist for the Intertribal Agriculture Council and UW-Madison graduate, will present a comprehensive overview of American Indian agriculture. Beginning with an outline sketching the history of tribal agriculture over the past several hundred years, Mr. Cornelius will discuss its current state, including several of his organization's innovative projects. He will then lay out a vision for future opportunities and challenges.
